

Camp Massawippi

Are you between 16 and 25 years old and living with Spina-Bifida, Hydrocephalus Cerebral Palsy or another motor impairment?

Have you always dreamed of becoming more independent in your daily living, but need a bit of help to make this dream a reality?

Come and join us for the third edition of the camp *“On the Path... to an Active Life”* from July 25th to August 5th, 2011

Located at Camp Massawippi in Ayer's Cliff of the Eastern Townships, this camp is one like no other! Un camp pas comme les autres.

This year, we are offering two different levels: *Level 1*, for those who have never attended this camp *Level 2*, offering new workshops, including a three-day trip to Montreal, for those who have already been to Camp in 2009 or 2010.

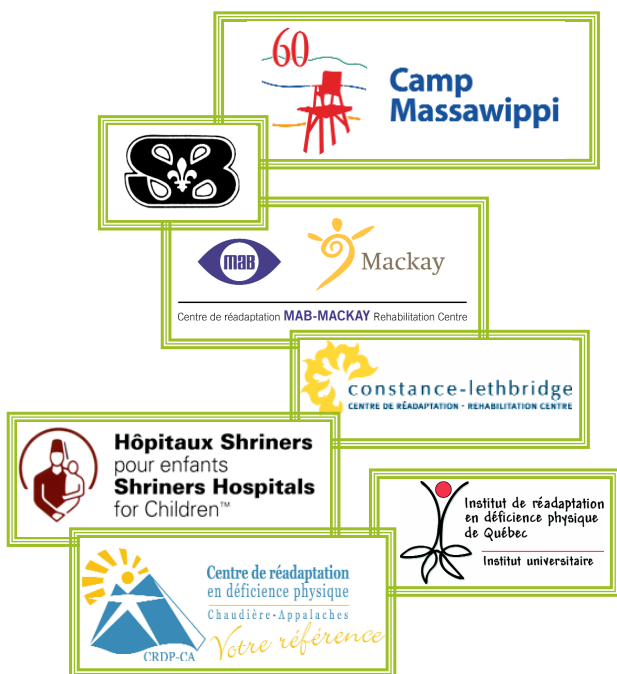

In the company of your peers, who are facing the same challenges, you will learn how to start adulthood with confidence and pride

For more information about the On the Path... to an Active Life Program and its many activities, please read the enclosed brochure.

You wish to register? Good for you! We will take great pleasure in welcoming you to Camp Massawippi. You must get into contact with your therapist (from school, the CLSC or your rehabilitation center) to fill out the letter of recommendation.

If you need financial assistance to help pay for the registration fee, please contact your healthcare professional, social worker or Member of Parliament, who can help you in your search.

Don't miss out on this great opportunity!
Registration closing date: March 15th, 2011
